DETAILED ACTION

Claims 1-6, 8-20 and 22-28 are allowed.

The following is an examiner's statement of reasons for allowance: As discussed in applicant's arguments, the prior art does not teach or render obvious a method for forming a printing plate precursor as in the amended claims, particularly including the step of identifying and pre-exposing to radiation in a second frequency spectrum areas which will be undesirably unexposed to radiation in a first frequency spectrum during a subsequent imagewise exposure in an exposure device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jill E. Culler whose telephone number is (571) 272-2159. The examiner can normally be reached on M-Th 8:30-5:00.
